projectlife

Uniden's ULP 1000 Laser Pico Projector amplifies the visual experience from devices including iPod, MacBook, notebook and netbook computers, digital cameras and mobile phones with TV-out, handheld game systems and DVD players.

Using patented laser technology this lightweight, pocket-sized projector reproduces stunning images on virtually any surface at any distance.

Always in focus with a wide field of view the ULP 1000 is ideal for spontaneous big screen presentations and image sharing experiences. Additionally you can simply plug and play from most notebooks running Vista, Windows 7 and Mac OSX using Uniden's VGA 1000 dock and project life.

SEEING IS BELIEVING

IDEAL FOR:

KEY BENEFITS:

- » Infinite Focus: Images are always in focus
- » Vivid Laser Colours: Rich, deep and saturated with uniform brightness throughout the image
